

Module 3) Projects

Soft-Skills Assignment

- **Describe a key project you have worked on or are currently working on.**

ANS. : In my last year of college, I created the "APMC Gondal" project, which stands for Agricultural Produce Market Committee. This project is specifically designed for farmers.

- **Explain the technologies used, the scope of the project, and its objectives.**

ANS. : I used HTML, CSS, ASP.NET, and C# technologies for my project. The project was designed to allow farmers to check yard prices on their phones and provide a platform where they could list their produce and participate in auctions.

- **Highlight the challenges faced and how you addressed them, showcasing your problem solving skills.**

ANS. : I faced the challenge of creating an easy-to-use interface for farmers who might not be very familiar with technology.

~> To solve the problem, I simplified the design with big buttons and clear instructions for each farmer.
